A FEW QUICK TIPS

- Natural lighting
- Neutral expression
- Hair tied back if possible
- Relaxed shoulders
- No filters

✨ How to Take the Best Photo

A good setup makes your progress so much easier to see.

NO SELFIES

Photos should not be selfies. Kindly ask someone to assist you, or use a tripod.

POSTURE

Stand straight and relaxed, without forcing or tightening your body. Your entire posture must be clearly visible in the posture shots.

HAIR & OUTFIT

Tie your hair back and wear fitted but comfortable clothes so your body alignment is visible.

📖 How to Get the Best Results

Simple habits that make all the difference.

- ✓ **Follow the daily schedule in order.** Each session builds on the last, so keep them in sequence.
- ✓ **Prep your skin properly.** Use proper oil or cream on a clean face with clean hands, and wash it off immediately after your session.
- ✓ **Practice consistently.** Small, regular sessions beat long ones done occasionally.
- ✓ **Listen to your body.** Never force an exercise — gentle and steady wins.
- ✓ **Ask questions at chat support.** We're always here to support you.
- ✓ **Track your progress with photos every 4 weeks.** Watching the change keeps you motivated.

Your face is unique — and so is your journey.

Please don't compare your progress to anyone else's. Some people notice changes quickly, while others take more time — depending on posture, breathing, muscle habits, stress, sleep, and overall health.

Trust the process, stay consistent, and let us guide you every step of the way. We're so excited to see your transformation. 🧡

Consistency beats perfection.

Small daily efforts create lasting results.

You are already glowing — keep showing up for yourself. 🌸
